Instead of cowering into a corner when the subject of Roman capitals is mentioned, get up and work with these magnificent pillars of strength. This workshop will be an introduction to pen-written Roman capitals structured for the beginner and for those who want to review or improve their skills. The basic structure and proportion of the letters will be examined first with a monoline tool, and then a broad-edged tool will be used. We will go from a sans serif style to a variety of simple serifs. Letter spacing and word spacing, built-up letters, drawn Trajan Romans, variations, and other modifications will be covered, if time permits.

This workshop is appropriate for all levels.

*Jane Shibata is a part-time faculty member in the art department at Santa Monica College and runs a design business specializing in the lettering arts in Los Angeles. She is a long-time SFC member who has served on the board, coordinated outreach events, and she teaches many workshops for the Society for Calligraphy.*
